

# URGENT! WE NEED YOUR VOICE FOR OPEN SPACE!

THE COUNTY'S 20 YEAR MASTER PUBLIC SPACES PLAN WILL WASTE MILLIONS OF DOLLARS AND AFFECT PARKS FOR DECADES

<p>Our data shows we have <b>too many fields for the next 20 years.</b> We should tell the public...</p>	<p>Let's create great community parks for everyone &amp; sports groups get all the fields they need &amp; Arlington combines 2 APS fields for a new school expansion!</p>	<p>Nope! Parks Dept will retain <b>unneeded</b> fields &amp; spend <b>millions</b> on their maintenance, new synthetic turf &amp; lights – It's in the <b>20 year plan</b> the Board will approve soon!</p>

" Parks & Rec "

Dept. of Parks' internal reports show that there are more fields than needed for at least 20 years. County mismanagement of field scheduling creates the false public perception of insufficient fields. The Parks Dept is keeping all this information from the public. A summary of the Parks Dept data is on [parks4everyone.org](http://parks4everyone.org)

**Demand an Independent Review of Park Facilities NOW**

*before the County Board approves a 20 year Parks Master Plan without this critical data & public review.*

Arlington must make the best use of its limited land & monies for everyone!
